CREDIT AND TRADE HAVE AL-MOST CEASED IN RUSSIA.

Christians Won't Sell to Jews, Nor Jews to Christians, Cable to an East Side Newspaper Says-Cutbreak Feared in Roumania-Urgent Call for Relief.

News of present conditions at Kishineff was received yesterday by the Jewish Daily News in a cable despatch sent from that city. The despatch says that credit and business are at a standstill and that those who before the riots were beggars are now starving. The news came from Dr. Muchnik in response to a request for information It is dated May 19 and says:

We are in receipt of your cables of inquiry. It is impossible to send answers to your questions at this time. The reason must be obvious. Quiet prevails in Kishineff. It is always quiet in a cemetery-for that is all that Kishineff is now.

Rumors of new riots are flying everywhere. but for the present things are quiet every-where. But the result of this one riot is a terrible one for all the Jews of Russia. A financial crisis has come. Credit and confidence have ceased. Persons who have money have concealed it for the hour of

emergency.

Persons having goods, wares and merchandise do not permit them to pass out of their hands except for each payments. Christians are not selling goods to us on credit, for fear that new riots may impoverish us and make it impossible for us to pay. Jews are selling no goods to Christians, for fear the latter will pay with a new riot. No new business is indertaken and old business is paralyzed. The result is that there is distress and poverty in the whole land such as was never before known. Wealthy men have become poor; poor men are now beggars, and those who were beggars are starving to death.

The same newspaper also received yesterday a letter sent to a prominent Jew in this city by his brother in Warsaw, which savs in part:

Here in Warsaw we expected a riot on May 8, and were prepared. All of our Jewish youth was armed—aye, and even men up to the age of forty. We were organized and hard wounds at every corner. We had pickets and messengers in the telephone booths, and the age of forty. We were organized and had squads at every corner. We had pickets and messengers in the telephone booths, and picked minute men in front of the churches. These minute men were young men armed with revolvers loaded with heavy cartridges. The streets swarmed with our young men—Long life to them!

Be thoroughly armed and prepared were we that the tables were turned and the Christians feared to walk through the streets.

When Lapouchin, the Imperial Chief of

Christians feared to walk through the streets.

When Lapouchin, the Imperial Chief of Police of Kishineff, asked a Jew if he could indicate who the bandits were, the letter says, this man answered:

"The Governor, the Chief of Police, the Colonel, the sergeants, and the rest of your whole devil's crew."

Among the letters received vesterday was one to the Jewish Herald, from its correspondent in Buhush, Roumania, telling of fears of a massacre in that country. It says in part:

It says in part:

Only the God Aimighty knows what the future has in store for us. The bloody messacre at Kishineff has irritated the Rosmanian populace, and they are like hyenas who have smelled blood from afar. All the Jews in Rosmania are frightened to death. The Christians of Derlay, Bakau, Galatz, Tulcha and many other places procisim openly that they will massacre all the Jews. The so-called representatives of the Rosmanians say that they are not afraid of American protests so long as Russia is killing Jews in discriminately. Even the children know what is expected in the future, They appear at a Jewish store and say:

"Come, you miserable Jew, and give us whatever we desire, for you will surely be killed and everything will be taken away from you." It save in part:

from you."

The Jews have closed up many of their shops and stores. Large military forces are entering the towns, but these soldiers say that they will also participate in the pillaging and murdering of the Jews. We believe them for the same thing occurred in Russia. For God's sake, do not publish my name, for it is strictly prohibited to communicate with the outside world, and I may easily fall a victim for this communication.

in Kieff, says that about 30,000 Jews of that city are preparing to come to America as soon as the city is quiet enough to insure the safety of families left behind.

Other Russian papers received yesterday say that on the second day of the Kishineff riots the Jews went to the Christian hotels seeking safety, and the hotelkeepers, taking advantage of their plight, charged them \$1 an hour for their rooms.

#### ADIRONDACK FOREST FIRES. The Beasens That Most of the Damage Is Done to the State's Lands.

GLENS FALLS, May 20 .- Thousands of acres of land have been burned over along the southern edge of the Adirondacks through townships along the boundary lines between Warren and Hamilton counties. Nearly all of the damage has been done to State lands, and the corporations, firms and individual owners have lost comparatively, little. This seems strange to the outsiders, but those ac-

strange to the outsiders, but those acquainted with the native woodsman and the prevailing conditions do not wonder.

Many of the woodsmen do not have the most kindly feeling toward the State. In the winter, following the custom of years they replenish their woodpiles from the State lands, taking a piece or two of timber or a log or so from which to make shingles. When summer comes they have been used to cutting wild hay from the beaver meadows, but with the many game protectors now about such depredations have to be settled for, and of the amount collected the officer gets half.

Then again the men have a disinclination to fight fires because in working for the towns they have to wait until the ensuing February for their pay, or else liberally shave their accounts. If the fire is on private property, and especially if the owner is a large firm or corporation, they are quite likely to receive their wages at once.

In some cases there has been another

once.

In some cases there has been another cause for fires being allowed to run without hindrance. Occasionally there is a fire warden who has aspirations for a higher office, and naturally he is loath to make a large bill of expense, half of which is paid by the town purely in the protection of the State's property.

# E. H. HARRIMAN OPERATED ON

VERMIFORM APPENDIX GONE; CONDITION EXCELLENT.

Not Many Hours After the Operation He Was Dictating Telegrams Telling His Friends That All Was Well-Prospeets of an Early Recovery Are Good

Edward H. Harriman had his vermiform appendix removed at the Hotel Netherland yesterday morning. The operation was performed by Dr. William T. Bull, assisted by Dr. John B. Walker. The attending hysicians were Dr. Lewis Rutherfurd, Mr Harriman's family physician; his assistant, Dr. William G. Lyle, and Dr. Theodore C. Janeway. In the absence from town of Dr. Myron P. Denton, Dr. Thomas L. Bennett, the anæsthetist at the New York and Roosevelt hospitals, administered the ether. The operation was highly successful.

The surgeons, as is always the case, rather preferred to operate in a hospital, but Mr. Harriman desired to remain at home. It was deemed inadvisable to perform the operation at the Harriman house, 1 East Fifty-fifth street, owing to the illness, from scarlet fever, of two of Mr. Harriman's daughters. Therefore a suite of rooms on the fifth floor of the Netherland, overlooking Fifth avenue and Fifty-ninth street, was engaged and the patient went there on Tuesday afternoon. The walls of the operating room were hung with sheets, and the room was sterilized early yesterday morning.

morning.

The surgeons and physicians arrived shortly after 8 o'clock, and the nurses at once prepared the patient for the operation. At 8:30 Dr. Bennett began to administer the ether, and at 9:30 the operation had been performed. The patient came out of the ether finely and was bothered very little by nauses. The appendix was found to be slightly inflamed, but there was no pus and no gangrenous condition. Early yesterday afternoon Mr. Harriman told one of the attendants that he was feeling much better than he imagined he could much better than he imagined he could so soon after the operation.

The report of Gen. Gillespie, Chief of Engineers, is as

of the harbor.

If this application be granted the slips may be made 1,000 feet deep along the section considered, and the width of channel between pierheads of opposite shores thereafter will be reduced to 2,395 feet, and still further reduced to 2,395 feet if the application of the hiparian Commission of New Jersey for an equal extension of the pierhead line at Castle Point be also granted. equal extension of the pierhead line at Castle Point be also granted.

The Chief of Engineers has given this matter very careful consideration, and is of the opinion that the pierhead lines on both shores at this locality have been placed as far out into the navigable waters as it is safe and wise for the interests of the harbor to place them, and that if further encroachments are permitted to be made it will be only at the sacrifice of a portion of the present harbor and channel capacity, and at the expense of public commercial interests connected therewith, which interests are under the protection of the General Government. The Chief of Engineers is still of the opinion that the application should be denied.

ceive No Pay After June 30. WASHINGTON, May 20.-At the end of the present fiscal year, on June 30, Mrs. Minnie M. Cox, the colored postmaster at Indianola, Miss., who some months ago was induced to resign by persecution and threats of violence because of race prejudice, but who was continued in office and her salary paid by the Post Office Department, although the Indianola office was suspended, will be postmaster in name only and will not receive further compensation from the

dential office, in which class the Indianola office belonged, depends upon the annual receipts of the office. When the receipts of an office are less than \$1,200 a year it is dropped to the fourth class, and the postmaster's compensation is derived solely from cancellations. When there are no cancellations the office is discontinued. In the case of the Indianoia office, there are no cancellations and no receipts from other sources, and heretofore, since the office was suspended, Mrs. Cox's steadily diminishing salary has been paid out of her portion of the receipts and cancellations prior to the suspension of the office.

After the first of the next fiscal year there will be no fund to fall back on, and Mrs.

Cox will not receive any compensation for her figitious service.

Exchanged AEOLIANS and ORCHESTRELLES

at Reduced Prices

OR TWO WEEKS, BEGINNING MAY 18TH, there will be held a special sale of slightly used Aeolians and Orchestrelles. Prices on Aeolians are so rigidly maintained that this is indeed a street or account of the control of the cont tained that this is indeed a rare opportunity for those who have thought that they should like to have an Acolian, but who do not feel warranted in purchasing new instrument.

These instruments have been placed in perfect condition for all practical purposes, in many instances are as good as if they had never been used, and are subject to the same guarantee. Twice a year a special sale is held. This Spring the sale embraces an unusually large stock, & prices that will insure their prompt purchase.

SPECIAL SALE BEGINS MONDAY, MAY 18,

and will continue for two weeks only. Included are a few Pianolas loaned to customers while waiting for special cases made to order.

It may be of interest to mention that the majority of instruments offered below were the styles upon which the strongest endorsements were obtained. The Aeolian Grand differs only in case design from the first instrument owned by the late Queen Victoria and now in Balmoral Castle. Style 1500 is an exact duplicate of the instrument purchased by Grand Duke Michaelovitz of Russia.

HOLD-UP OF NEGRO CARRIER. Appointment Irregular. WASHINGTON, May 20. Postmaster-Gen-

latin, in that State, some weeks ago, of the negro carrier. Allgood, by a mob of masked and armed men, who threatened him with death if his trips were not immediately discontinued. As the result of the facts contained in the report, and the earnest petition of Senator Bate route 1 out of Gallatin will probably be agr in placed in operation, with a carrier other than Allgood. Mr. Conger's report says that the "mob of masked and armed men" consisted of two individuals, who are not respected citizens of Gallatin or vicinity; that their act in holding up the carrier and threatening him with death if he continued his trips does not express the sentiment of the Gallatin community, and that the life of a negro carrier on rural route 1 will be perfectly safe in the future, assurances having been given to that effect. Mr. Conger adds that the negro Allgood is frightened nearly to death, and will not resume his trips under any circumstances.

trips under any circumstances.

Mr. Payne said to-day that he didn't wish to make Mr. Conger's report public until a decision had been reached in the case.

Service Commission had been and the Civil Service Commission had been heard from regarding an alleged irregularity in Allgood's appointment. This last feature in the case was first heard of to-day. Heretofore, the Post Office Department officials and the Civil Service Commissioners have insisted that Allgood was appointed because he made the best average in a competitive examination, and there was no option but to commission him as carrier. Now it is said there was a "mistake," and that Allgood's appointment was somewhat

that Allgood's appointment was somewhat irregular.
Senator Bate spent two hours with the Postmaster-General this morning, discussing the case, and after the interview expressed himself as perfectly satisfied with the contents of Inspector Conger's report, and with Mr. Payne's contemplated action as outlined by him during the conference. The Senator wouldn't say what this action would be reëstablished mated that the route would be reestablished under an assurance from the citizens liv-ing along the line that the carrier's life would be perfectly safe from violence.

To Count the Bonds in the Treasury. WASHINGTON, May 20 .- The United States Treasurer has appointed a committee of seven persons to make a thorough count of all the bonds now in the Treasury. GOVERNMENT COAL CONTRACTS.

Contractors Must Stand the Loss Caused by the Miners' Strike.

WASHINGTON, May 20 .- The Comptroller of the Treasury, in an opinion rendered to-day, holds that contractors who agreed to furnish coal to the Government last winter and were compelled to pay a high price on account of the Pennsylvania coal strike will have to stand the loss them selves. The Government can only pay the contract price. The decision was rendered in the case of a New York contractor who, through Col. F. N. Denny, Quartermaster of the Marine Corps, agreed to furnish coal at a certain price. The strike nish coal at a certain price. The strike came on and the contractor was obliged to pay more for the coal than the Govern-ment had agreed to pay him.
